

CountEasy™

Count a Cash Drawer in Less Than One Minute!

How long is it taking you to count, recount and verify your cash drawers by hand at the end of the working day? Are you still manually preparing your bank deposit and next day's starting drawer? A drawer count has never been simpler and takes less than a minute to complete.

Pre-programmed to count both your coins and bills in sequence and with a running total on screen, the CountEasy™ is your calculator. Light weight, portable and both recharger-power supply and battery operated the CountEasy™ can be used anywhere at any time.

- ◆ Count Down a Cash Drawer in Under One Minute
- ◆ Proven Weigh Counting Technology
- ◆ Counts Loose and Banded Bills, and Loose, Rolled and Bagged Coins

Standard FlexiCup™ for Simple Coin Handling

Optional Till Cups Fit Popular Cash Drawers

Add the Ellix 10 Thermal Printer to Run Grand Total and Subtotal By Denomination Reports

Features and Benefits

- Switchable Between US Dollar, £ Sterling and Euro Currencies

Includes

- Rechargeable Batteries, Re-Charger and Power Supply
- FlexiCup™ for Simple Coin Handling

Functions

- Simple, Future-Proofed Retail Specific Operating Procedures
- Small Footprint Making it Compact and Space Efficient
- Commercially Available Rechargeable Batteries with 12 Hour Life
- Preprogrammed with 18 Languages and 3 Currencies – Sterling, Euro and US Dollar
- Future-Proofed for New Bills, New Denominations and New Package Sizes

Return on Investment

Average QSR with 4 Drawers and 3 Counts per Day:

	Count Time per Drawer	Count Time per Day	Labor Cost @ \$12 / Hour
Manual Count	4 Minutes	48 Minutes	\$ 9.60
CountEasy™	55 Seconds	15 Minutes	\$ 3.00
		<i>Savings per Day</i>	\$ 6.60
		<i>Savings per Month (30 Days)</i>	\$ 198.00
		<i>Savings per Year</i>	\$ 2,376.00

How it Works

Count Down the Till

CountEasy™ powers up in the lowest coin denomination, adds the amount counted to a running total and automatically scrolls to the next coin. The same principle applies to the counting of loose bills and ensures an accurate automated cash drawer reconciliation of both bills and coins in under a minute.

Prepare the Bank

Starting or ending bank preparation could not be simpler and is best incorporated into the actual cash drawer count thus speeding up the individual process even further. Use the FlexiCup™ which is ideal for gripping and pouring coins back into the cash drawer compartments when preparing your bank. Or use the optional till cups in your cash drawer coin compartments for faster counting.

Prepare for Banking

All standard banking quantities of coin bags/rolls are pre-programmed to accurately and speedily prepare your bank deposits. Count out loose bills to quickly prepare your bank bundles. Check partial or full coin bags/rolls or loose bills. Use the Flexicup™ which is ideal for gripping and pouring coins into bags.
